

# Research Methods

Day 10: Building Your Presentation – Methods, Results & Citations

# Outline for Today

1. **The Presentation Outline (Refresher)**
2. **Goal 1: Finish Your Methods Slide**
3. **Goal 2: Compile Your Results**
4. **Goal 3: Enrich Discussion & Conclusion**
5. **Goal 4: Cite Your Resources**

# Welcome to Day 8!

# Today's Goal

**Today your goal is to work on your slides for your presentation.**

Let's remember the presentation outline.

# Presentation Outline

1

**Title Slide:** Introduce yourself and the project by naming the title, presenters, date of presentation, the institutions at which the study is conducted. Add logos if you can.

2

**Topic Slide:** Name your global challenge, define it (cite your source), state why this is important (cite your sources).

3

**Literature Review Slide:** What do you know about this issue based on your literature review? Have a couple statements arranged by ideas/themes. Cite your sources.

4

**Research Question Slide:** Name your research question(s) and if possible hypothesis.

5

**Methods Slide:** State that your work is secondary research. Introduce your data source (including the year data was collected) & sample (including its size and key characteristics). Name key variables. Name the tools you used to analyze data.

6

**Results Slides:** First share descriptive statistics for each key variable (mean, median, mode, range). Provide numbers, graphs, tables as suitable. This can be multiple slides.

7

**Discussion:** How you interpret what you have found.

8

**Conclusion:** Final words and good-bye.

9

**References:** List your references. Be consistent with the style.

# REMEMBER? Using the 5 W's (and How)

**Who** — who is involved or affected? (teenagers, athletes, teachers, polar bears)

**What** — what aspect interests you? (mental health, economic cost, performance)

**Where** — a certain location or context? (your city, online communities, lakes)

**When** — a time period? (past 5 years, during summer, historical period)

**Why/How** — causes or processes? (why something happens, how factors interact)

1st GOAL:  
Finish Your Methods Slide

# The Methods Slide Includes:

## **Research Design**

- **Approach:** Quantitative (Descriptive)
- **Methodology:** Secondary data analysis of a publicly available data set

## **Data Source**

- Name of the data set • years covered / data collected • institution that collected the data

## **Sample**

Introduce your sample including its size, nature, and key characteristics.

## **Analyzed Variables**

Simply name each variable you analyzed.

# 2nd GOAL: Compile Your Results

# 3rd GOAL: Enrich Your Discussion / Conclusion Slides

## 4th GOAL: Cite Your Resources

### “ Throughout the presentation: name utilized resources

- In research, failing to plan is identified as planning to fail (**Yin & Ogut, 2025**).
- **Toska (2023)** suggested that counseling centers in Türkiye tended to avoid presence on social media platforms.

### ☰ At the end of the presentation: full list

- Toska, G. (2023). *Counseling Centers in Türkiye*. Paper presented at the National Conference on Counseling Psychology. Istanbul, Türkiye.
- Yin & Ogut (2025). *Nexcellence ResearchCORE: Unveiling the Power of Inquiry: An Introduction to Research Methods for All Curious Minds*. Nexellence Press. ISBN: 979-8-9988862-1-8

# Homework – Teamwork

- ☰ Finalize your slide content
- ↔ Assign who is presenting which slide
- 👤 Practice!

# EXTRA SLIDES FOR DAY 8

# SLIDE SHOWDOWN

## SHOW US:

- ☆ 2 slides of your best work
- ❓ 2 slides of your questionable slides
